Install with Bower:

```
$> bower install --save angularjs-geolocation
```

Add the file to index.html:

```html
<script src="lib/angularjs-geolocation/src/geolocation.js"></script>
```

Add the dependency to your module:

```javascript
angular.module("citizen-engagement", ["...", "geolocation"])
```

Usage

Inject and use the service:

```
.controller("MapController", function(..., $log, $scope, geolocation) {

  // ...

  geolocation.getLocation().then(function(data) {
    $scope.mapCenter.lat = data.coords.latitude;
    $scope.mapCenter.lng = data.coords.longitude;
  }, function(error) {
    $log.error("Could not get location: " + error);
  });
});
```
